

# Uroš Nešić

## Front-end developer

[unesic.io](https://unesic.io)[@unesic](https://github.com/unesic)[hire@unesic.io](mailto:hire@unesic.io)[@unesic](https://www.linkedin.com/in/unesic)

## About me

A software engineer specializing in full-stack web development with primary focus on the front-end technologies. Fueled by undoubtedly weird sense of humor and lots of coffee (mostly the latter), I spend most of my waking hours looking for interesting project ideas and ways to leave my mark on the ethereal thing that is the Internet.

## Technologies

HTML

CSS

JS (ES6+)

TypeScript

React (Context API, Router)

Redux

Express.js

GraphQL

MongoDB (Mongoose)

Heroku

WordPress

git

## Experience

### WordPress Developer @ [BlueGrid](#)

February 2020 – Present

Developing custom theme, page templates and custom post types

Converting designs to responsive, functional and interactive pages

SEO and speed optimization using caching and lazy-loading techniques

Writing clean and easily-maintainable JavaScript, CSS and php code

### WordPress Developer @ [lvapix](#)

September 2018 – January 2020

Designed, developed and shipped beautiful websites for clients

Maintained websites and their hosting provider through cPanel

Tracked analytics and SEO performance using Google Services

## Projects

### Personal website – [unesic.io](https://unesic.io)

Built using Gatsby and Chakra UI with light/dark mode and keyboard navigation.

### Boleskine – [boleskine.unesic.io](https://boleskine.unesic.io)

Built with React (TS), Redux, TailwindCSS, Express, Apollo, GraphQL and MongoDB.

### Trello Clone – [trello.unesic.io](https://trello.unesic.io)

Built with React, Styled Components, Socket.io, Feathers.js and MongoDB.
