Uroš Nešić
Front-end developer

unesic.io @unesic
hire@unesic.io @unesic

About me

A software engineer specializing in full-stack web development with primary focus on the front-end technologies. Fueled by undoubtedly weird sense of humor and lots of coffee (mostly the latter), I spend most of my waking hours looking for interesting project ideas and ways to leave my mark on the ethereal thing that is the Internet.

Technologies

HTML CSS JS (ES6+) TypeScript React (Context API, Router) Redux

Express.js GraphQL MongoDB (Mongoose) Heroku WordPress git

Experience

Frontend Developer @ Neopix
February, 2022 – Present

$ Coming soon...

WordPress Developer @ BlueGrid
February, 2020 – February, 2022

$ Developing custom theme, page templates and custom post types

$ Converting designs to responsive, functional and interactive pages

$ SEO and speed optimization using caching and lazy-loading techniques

$ Writing clean and easily-maintainable JavaScript, CSS and php code

WordPress Developer @ Ivapix
September, 2018 – February, 2020

$ Designed, developed and shipped beautiful websites for clients

$ Maintained websites and their hosting environments through cPanel

$ Tracked analytics and SEO performance through Google Services
